A **round steak** is a beef <u>steak</u> from the &quot;round&quot;, the rear leg of the cow. The round is divided into cuts including the eye (of) round, bottom round, and top round, with or without the &quot;round&quot; bone (femur), and may include the knuckle (sirloin tip), depending on how the round is separated from the loin. This is a lean cut and it is moderately tough. Lack of fat and marbling makes round dry out when cooked with dry-heat cooking methods like <u>roasting</u> or <u>grilling</u>.

Round steak is commonly prepared with slow moist-heat methods including <u>braising</u>, to tenderize the meat and maintain moisture. The cut is often sliced thin, then dried or smoked at low temperature to make

jerky

.

 $\frac{\text{Rump cover}}{\text{Rump cover}}, \text{ with its thick layer of accompanying fat, is considered one of the best (and most flavorful) beef cuts in many South American countries, particularly <math display="block">\frac{\text{Brazil}}{\text{rgentina}} \text{ and } \frac{\text{A}}{\text{Constant of the best of the best (and most flavorful)}}$ 

. This specific cut does not tend to be found elsewhere, however.
