

## A sincere thanks to you all

Written by W.J.Pais

---

I happened to read the **Face book** notification, telling me about the number of people who have liked my website. You may be knowing, that I am 82 years old this year, and suffer from failing eyesight. I have always liked to help others, and the whole idea of this website, came about, when my two daughters, moved abroad to work, and I remembered my days, when I had to be alone in Qatar in the early sixties. So, I thought of reaching out to my kids, as they had not used the opportunity to learn cooking from their mother, as they were studying. I know this is the case of all young people today, and the best thing we old ones can do is use our knowledge to help others to overcome this hurdle. I feel vindicated, that my efforts did not go in vain, from the number of &quot;likes&quot; I read in the

**Face boo**

k Notification.

Let me say a sincere thank you to all those well wishers, and hope I will continue doing this as long as possible.
