", and their knowledge

Recent writings by some writers like Dan Brown, have given a false idea of Christian belief. They have tried to make a mockery of Christ and the history by pretending to be writing fiction, based on certain literature that was prevalent at the time, when Gnostics were an important part of the North African landscape. To better understand the period, one can read what follows, and read more at New Advent.org in the article on **Gnosticism**

```
The doctrine of <u>salvation</u> by <u>knowledge</u>. This definition, based on the etymology of the
                                                 gnosis "knowledge", gnostikos, "good at
word (
knowing"), is correct as far as it goes, but it gives only one, though perhaps the predominant,
characteristic of Gnostic systems of thought. Whereas
Judaism
and
Christianity
, and almost all
pagan
 systems, hold that the
soul
attains its proper end by obedience of
mind
and will to the Supreme Power, i.e. by
faith
and
works
, it is markedly peculiar to Gnosticism that it places the
salvation
of the
soul
merely in the possession of a quasi-intuitive
knowledge
of the
mysteries
of the
universe
and of magic formulae indicative of that
knowledge
 Gnostics were "people who
knew
```

at once constituted them a superior class of beings, whose present and future status was

essentially different from that of those who, for whatever reason, did not

know

. A more complete and historical definition of Gnosticism would be:

A collective name for a large number of greatly-varying and <u>pantheistic</u> - <u>idealistic</u> <u>sects</u>, which flourished from some

time

before the

Christian Era

down to the fifth century, and which, while borrowing the phraseology and some of the tenets of the chief

religions

of the day, and especially of

Christianity

, held

matter

to be a deterioration of

spirit

, and the whole

universe

a depravation of the

Deity

, and taught the ultimate end of all being to be the overcoming of the grossness of matter

and the return to the Parent-Spirit, which return they held to be inaugurated and facilitated by the appearance of some God-sent Saviour.

However unsatisfactory this definition may be, the obscurity, multiplicity, and wild confusion of Gnostic systems will hardly allow of another. Many scholars, moreover, would hold that every attempt to give a generic description of Gnostic sects is labour lost.

Origin

The beginnings of Gnosticism have long been a matter of controversy and are still largely a subject of research. The more these origins are studied, the farther they seem to recede in the past.

Whereas formerly Gnosticism was considered mostly a corruption of Christianity, it now

Written by W.J.Pais

seems clear that the first traces of Gnostic systems can be discerned some centuries before the Christia

n Era

lts

Eastern

origin was already maintained by Gieseler and Neander; F. Ch. Bauer (1831) and Lassen (1858) sought to

prove

its relation to the

religions

of

India

;

Lipsius

(1860) pointed to

<u>Syria</u>

and

Phoenicia

as its home, and Hilgenfeld (1884) thought it was connected with later Mazdeism. Joel (1880),

Weingarten

(1881), Koffmane (1881), Anrich (1894), and Wobbermin (1896) sought to account for the rise of Gnosticism by the influence of Greek

Platonic

philosophy

and the Greek mysteries, while Harnack described it as "acute Hellenization of Christianity

"

For the past twenty-five years, however, the trend of scholarship has steadily moved towards proving

the pre-Christian Oriental origins of Gnosticism. At the Fifth Congress of Orientalists (Berlin, 1882) Kessler brought out the connection between Gnosis and the

Babylonian

religion. By this latter name, however, he meant not the original religion of

<u>Babylonia</u>

, but the

syncretistic

religion which arose after the conquest of Cyrus. The same

idea

is brought out in his "Mani" seven years later. In the same year F.W. Brandt published his "Mandiäische Religion". This

Mandaean

religion is so unmistakably a form of Gnosticism that it seems beyond

Written by W.J.Pais

doubt

that Gnosticism existed independent of, and anterior to,

Christianity

•

In more recent years (1897) Wilhelm Anz pointed out the close similarity between Babylonian

astrology

and the Gnostic theories of the Hebdomad and Ogdoad. Though in many instances speculations on the

Babylonian

Astrallehre

have gone beyond all sober scholarship, yet in this particular instance the inferences made by Anz seem sound and reliable. Researches in the same direction were continued and instituted on a wider scale by W. Bousset, in 1907, and led to carefully ascertained results. In 1898 the attempt was made by M. Friedländer to trace Gnosticism in pre-Christian

Judaism

. His opinion that the

Rabbinic

term

Minnim

designated not

Christians

, as was commonly

believed

, but

Antinomian

Gnostics, has not found universal acceptance. In fact, E. Schürer brought sufficient proof

to show that

Minnim

is the exact Armaean dialectic equivalent for

ethne

. Nevertheless Friedländer's essay retains its value in tracing strong

antinomian

tendencies with Gnostic colouring on

Jewish

soil.

Not a few scholars have laboured to find the source of Gnostic theories on Hellenistic and, specifically, Alexandrian soil. In 1880 Joel sought to process.org/ that the germ of all Gnostic theories was to be found in Plato.

Written by W.J.Pais

Though this may be dismissed as an exaggeration, some Greek influence on the birth, but especially on the growth, of Gnosticism cannot be denied. In Trismegistic literature, as pointed out by Reitzenstein (Poimandres, 1904), we find much that is strangely akin to Gnosticism. Its

Egyptian

origin was defended by E. Amélineau, in 1887, and illustrated by A. Dietrich, in 1891 (Abraxas Studien) and 1903 (Mithrasliturgie). The relation of Plotinus's philosophy

to Gnosticism was brought out by C. Schmidt in 1901. That Alexandrian thought had some share at least in the development of

Christian

Gnosticism is clear from the fact that the bulk of Gnostic literature which we possess comes to us from

Egyptian

(Coptic) sources. That this share was not a predominant one is, however, acknowledged by O. Gruppe in his "Griechische Mythologie und Religionsgeschichte" (1902). It is true

that the Greek mysteries, as G. Anrich pointed out in 1894, had much in common with esoteric Gnosticism; but there remains the further question, in how far these Greek mysteries, as they are

known

to us, were the genuine product of Greek thought, and not much rather due to the overpowering influence of Orientalism.

Although the origins of Gnosticism are still largely enveloped in obscurity, so much light has been shed on the problem by the combined labours of many scholars that it is possible to give the following tentative solution: Although Gnosticism may at first sight appear a mere thoughtless syncretism of well nigh all religious systems in antiquity, it has in reality one deep root-principle, which assimilated in every soil what is needed for its life and growth; this principle is philosophical and religious pessimism.

The Gnostics, it is $\underline{\text{true}}$, borrowed their terminology almost entirely from existing $\underline{\text{religions}}$, but they only used it to illustrate their great

idea

of the essential

evil

of this present

existence

and the

duty

to escape it by the help of magic spells and a superhuman Saviour. Whatever they borrowed, this

pessimism

they did not borrow - not from Greek thought, which was a

joyous

acknowledgment of and homage to the beautiful and noble in this world, with a studied disregard of the element of sorrow; not from

Egyptian

thought, which did not allow its elaborate speculations on retribution and judgment in the netherworld to cast a gloom on this present

existence

, but considered the

universe

created

or evolved under the presiding wisdom of Thoth; not from Iranian thought, which held to the absolute supremacy of

Ahura Mazda

and only allowed

Ahriman

a subordinate share in the

creation

, or rather counter-creation, of the world; not from Indian

Brahminic

thought, which was

Pantheism

pure and simple, or

God

dwelling in, nay identified with, the

universe

, rather than the Universe existing as the contradictory of

God

; not, lastly, from

Semitic

thought, for

Semitic

religions

were strangely reticent as to the

fate

of the

soul

after death, and saw all practical wisdom in the worship of

Baal

, or Marduk, or Assur, or Hadad, that they might live long on this earth.

This utter <u>pessimism</u>, bemoaning the <u>existence</u> of the whole <u>universe</u> as a corruption and a calamity, with a feverish craving to be freed from the body of this death and a mad hope that, if we only

w

we could by some

mystic

words undo the

cursed

spell of this

existence

— this is the foundation of all Gnostic thought. It has the same parent-soil as

Buddhism

; but

Buddhism

is

ethical

, it endeavours to obtain its end by the extinction of all desire; Gnosticism is pseudo-intellectual, and trusts exclusively to magical

knowledge

. Moreover, Gnosticism, placed in other historical surroundings, developed from the first on other lines than

Buddhism

When Cyrus entered Babylon in 539 B.C., two great worlds of thought met, and <u>syncretism</u> in religion, as far as we

know

it, began. Iranian thought began to mix with the ancient civilization of Babylon. The idea

of the

great struggle

between

evil

and

good

, ever continuing in this

universe

, is the parent

idea

of Mazdeism, or Iranian

dualism

. This, and the

imagined

```
existence
```

of numberless intermediate

<u>spirits</u>

angels

and devas, are the conviction which overcame the contentedness of

Semitism

.

On the other hand, the unshakable trust in $\underbrace{astrology}$, the persuasion that the planetary system had a $\underbrace{fatalistic}$ influence on this

world's affairs, stood its ground on the soil of Chaldea. The greatness of the Seven — the Moon, Mercury, Venus, Mars, the Sun, Jupiter, and Saturn — the sacred Hebdomad, symbolized for millenniums by the staged towers of

Babylonia

, remained undiminished. They ceased, indeed, to be worshipped as deities, but they remained

archontes

and

dynameis

, rules and powers whose almost irresistible force was dreaded by

<u>man</u>

. Practically, they were changed from gods to devas, or

evil spirits

. The

religions

of the invaders and of the invaded effected a compromise: the astral

faith

of Babylon was

true

, but beyond the Hebodomad was the

infinite

light in the Ogdoad, and every

human

soul

had to pass the adverse influence of the god or gods of the Hebdomad before it could ascend to the only

good

God

beyond. This ascent of the

soul

through the planetary spheres to the

heaven

Gnosticism

Written by W.J.Pais

beyond (an

idea

not unknown even to ancient

Babylonian

speculations) began to be conceived as a struggle with adverse powers, and became the first and predominant

idea

in Gnosticism.

The second great component of Gnostic thought is magic, properly so called, i.e. the power *ex opere operato*

of weird names, sounds, gestures, and actions, as also the mixture of elements to produce effects totally disproportionate to the

cause

. These magic formulae, which caused laughter and disgust to outsiders, are not a later and accidental

corruption, but an

essential

part of Gnosticism, for they are found in all forms of

Christian

Gnosticism and likewise in Mandaeism. No Gnosis was essentially complete without the knowledge

of the formulae, which, once pronounced, were the undoing of the higher hostile powers. Magic is the original sin of Gnosticism, nor is it difficult to guess whence it is inherited. To a certain extent it formed part of every

pagan

religion, especially the ancient mysteries, yet the thousands of magic tablets unearthed is Assyria

and

Babylonia

show us where the rankest growth of magic was to be found. Moreover, the terms and names of earliest of Gnosticism bear an unmistakable similarity to

Semitic

sounds and words.

Gnosticism came early into contact with <u>Judaism</u>, and it betrays a <u>knowledge</u> of the <u>Old</u>
<u>Testament</u>

, if only to reject it or borrow a few names from it. Considering the strong, well-organized, and highly-cultured

Jewish

colonies in the Euphrates valley, this early contact with Judaism

Gnosticism

Written by W.J.Pais

```
is perfectly natural. Perhaps the Gnostic
idea
of a Redeemer is not unconnected with
Jewish
Messianic
hopes. But from the first the Gnostic conception of a Saviour is more superhuman than that of
popular
Judaism
: their
Manda d'Haye
, or
Soter
, is some immediate manifestation of the
Deity
, a Light-King, an
Æon
Aion
), and an
emanation
of the
good
God
```

When Gnosticism came in touch with <u>Christianity</u>, which must have happened almost immediately on its appearance, Gnosticism threw herself with strange rapidity into <u>Christian</u>

forms of thought, borrowed its nomenclature, acknowledged

Jesus

as Saviour of the world, simulated its

sacraments

, pretended to be an esoteric

revelation

of

Christ

and His

Apostles

, flooded the world with

apocryphal

Gospels, and Acts, and Apocalypses, to substantiate its claim. As

Christianity

grew within and without the Roman Empire, Gnosticism spread as a fungus at its root, and claimed to be the only

true

form of

Christianity

- , unfit, indeed, for the vulgar crowd, but set apart for the gifted and the elect
- . So rank was its poisonous growth that there seemed danger of its stifling Christianity

altogether, and the earliest Fathers devoted their energies to uprooting it. Though in reality the spirit of Gnosticism is utterly alien to that of

Christianity

, it then seemed to the unwary merely a modification or refinement thereof. When domiciled on

Greek

soil, Gnosticism, slightly changing its barbarous and Seminitic terminology and giving its "emanatons" and "syzygies" Greek names, sounded somewhat like neo-Platonism

, thought it was strongly repudiated by Plotinus. In

Egypt

the national worship left its mark more on Gnostic practice than on its theories.

In dealing with the origins of Gnosticism, one might be tempted to mention <u>Manichaeism</u>, as a number of Gnostic

ideas

seem to be borrowed from

Manichaeism

, where they are obviously at home. This, however, would hardly be correct.

Manichaeism

, as historically connected with Mani, its founder, could not have arisen much earlier than A.D. 250, when Gnosticism was already in rapid decline.

Manichaeism

, however, in many of its elements

dates

back far beyond its commonly accepted founder; but then it is a parallel development with the Gnosis, rather than one of its sources. Sometimes

Manichaeism

is even classed as a form of Gnosticism and styled Parsee Gnosis, as distinguished from Syrian

and

Egyptian

Gnosis. This classification, however, ignores the fact that the two systems, though they have the

doctrine

of the

<u>evil</u>

Gnosticism

Written by W.J.Pais

of

matter

in common, start from different principles,

<u>Manichaeism</u>

from

dualism

, while Gnosticism, as an

idealistic

Pantheism

, proceeds from the conception of

matter

as a gradual deterioration of the

Godhead
